With more acts still to be announced, *Sea of Dreams* promises to be one of the most sought-after New Years tickets in the United States. Discount tickets are available online now at [www.seaofdreamsnyc.com](http://www.seaofdreamsnyc.com) and the prices will go up on **December 2**.

**about the artists:** **Thievery Corporation** is “A dominant force in the electronic/dance landscape, the quintessential ambassadors of the sophisticated global 'downbeat generation'” [BPM]. The Washington, DC based electronic collective has always been defined by its decidedly organic quality and this is clearly evident in the rich productions of their recent smash release *Radio Retaliation* and recent live tour dates. Despite their minimal beginnings, Thievery founders Rob Garza and Eric Hilton have adopted a growing cast of collaborators over the years, vital musicians and vocalists who contribute to a dynamic 15 member live band. Playing sold out venues and festivals worldwide, Thievery Corporation dazzles thousands of music fans every year with their kaleidoscopic live show. Featuring multi-ethnic instrumentation and MC's and vocalists singing in English, French, Portuguese, Spanish, Farsi and Patois, Thievery Corporation's live show is a stunning representation of the future of world music. At *Sea of Dreams*, Thievery will pull out all the stops to present a New Years set unlike any other in their long history of performances.

**Bassnectar's** insane nonstop touring schedule is catapulting him to national recognition with sold out dates all over the map. The Bay Area native has developed a unique style that is both classic and cutting edge, representing the burgeoning omnitempo blend of all musical genres united by surging ridiculous bass-lines, Bassnectar is one of the few electronic artists anywhere who can headline a tour and sell out his shows any night of the week and the crew has been smashing up venues coast to coast. Best identified by what he calls a “perverted love of bass frequencies” the sound is a freestyle smorgasbord, featuring seamlessly interlocked layers of hip hop, dubstep, glitch, grime, midtempo breakbeat, dub reggae and even metal and punk rock influences. Taking full homefield advantage, Bassnectar dives into San Francisco's *Sea of Dreams '09* with a enough enthusiasm to help you kick that coffee habit for the new year... for thorough updates and music go to [Bassnectar.net](http://Bassnectar.net) or [myspace.com/Bassnectar](http://myspace.com/Bassnectar)

Hailing simultaneously from Los Angeles, and Black Rock City, Nevada **the Mutaytor** is a 25-piece indie techno circus that overwhelms audiences with an over-the-top musical and visual assault. Featuring a full band with over 50 drums and percussion pieces, the Mutaytor choreographs original dance, circus, aerial, hoop, and video performances to their original music. With a long awaited full-length release “*Yelling Theatre in a Crowded Fire*” soon to be unveiled, the Mutaytor is staged to break out a completely fresh show at *Sea of Dreams*. San Francisco trip-hop quartet **BLVD** has seen their notoriety explode over the past 2 years through constant nationwide touring, the addition of acclaimed indie hip hop MC Souleye and the release of their recent full length album “*Music for People*”. **Goddess Alchemy Project** has made waves around the US with their melodic conscious hip hop styles. New York City's legendary “Basement Bhangra” **DJ Rekha** will be on-hand to bring some South Asian flavor to the event, joined by Surya Dub founder and world-electronic trailblazer **Maneesh the Twister**. *Sea of Dreams* also welcomes the DJ's who have defined and shaped the Bay Area's underground music community, including *Bonnaroo Music Festival* resident **Motion Potion** (of Funkonnection and the Fringe Arts Collective), SFBG “Best of the Bay 2008” winner **Smoove**, Santa Cruz's eclectic Little John (Raindance) and North Bay nufunk hero **Malarkey** (Juke Joint). With more acts still to be announced, *Sea of Dreams* is already a case of musical and visual overkill and is sure to sell out: so get tickets quick before its too late.
